CAMPUS LIBRARY
Serving UW Bothell and Cascadia College.
I am sorry about the small font size on this handout -- if you view the directions online, you can increase the text size for easier readability.

Click on the Library Workshop link. An image of this page is shown below:

For more information on using library services and resources, PubMed guides and tutorials, and other resources, check out the links on this page.

3. Review of the "Interlibrary Loan Account Setup" homework assignment in Canvas (Located in Canvas, and due on Sunday, June 30.) See the Interlibrary Loan Services Guide: A help guide using the UW Libraries Interlibrary Loan services for more information.

4. Review of "Background Research Activity" in Canvas, due on Wed., July 3. How did this go? See the Books & Encyclopedias page in this guide for a link to the Gale Virtual Reference Library resource.
   - As you get started with choosing your research topic, it is helpful to do some background research to familiarize yourself to "the lay of the land."
   - Making sense of the scholarly conversation requires some guidance, and scholars have been studying topics for decades.
   - This can activity can help you discover search words you can use in PubMed

5. Review the "PubMed Library Learning Activity" quiz in Canvas, due on Sunday, July 7. How did this go?

What questions do you have?

- PubMed (Publicly accessible - but some full text is UW restricted). (UW Health Sciences Library How-to Guide.) (PubMed Tutorials and Quick Tours.) (MeSH On Demand tool.) (PubMed for Nurses—Video Tutorials.)
  - National Library of Medicine's search service to access the 29 million citations in Medline and Pre-Medline (with links to participating on-line journals), and other related databases.
  - If you are off-campus and want to access the UW Restricted full text in PubMed, click on the PubMed link above and you should be prompted to login with you UW NetID and password.
• Use the UW Libraries Search system to locate full text articles online and in print. Books, journals, films and other formats of resources are also available. Some items are UW Restricted. See the Search for an article title in the UW Libraries Search brief directions page. More directions are located online at the UW Libraries Search Help Guide.

Optional Resource Links:

• See the Books & Encyclopedias page in this guide for a link to the Gale Virtual Reference Library resource to conduct background research.
• See the Health Studies: Articles page for database links such as Academic Search Complete (multiple subjects), PsycINFO (psychology), ERIC (education), and Web of Science (multiple subjects).
• UWB Writing & Communication Center: APA Formatting guide, the Campus Library APA Style Guides for citing sources, and Julie’s APA citation formats (Used in the BNURS 360 course) page.
• Campus Library Research Guides - Many subjects are covered, including psychology and sociology.

Optional Tutorials:

• How do I Search in Academic Search Complete?
• How to get the "Choose Databases" Search feature in EbscoHost
• Mining CINAHL Results for New Search Words/Phrases and Trends
• CINAHL Tutorials
• Web of Science Training Page and youtube tutorials

Research Proposal Assignment -- First Submission and Final Research Proposal (pgs. 1 & 2):

The largest assignment for this class will be the completion of an individual research proposal. For this project, each student will select a health research topic of interest, develop a research question, and propose a research project that could provide evidence with regards to the research question. The First Submission is a draft of your Final Proposal Paper. It will include five key sections: (1) Introduction/Literature Review, (2) Methods, (3) Limitations, (4) Discussion and Future Directions, (5) References: (no page limit & does not count towards page limit): A minimum of 6 peer-reviewed references. Websites do not count towards the 6 references. (One meta-analysis or systematic review is okay to use.)

The Final Proposal Paper is a revision of your First Submission. Pay specific attention to the methods (study design, population, measures, procedures, ethics, and type of analysis), and discussion (implications, limitations, & future directions).
